Board of County Commissioners  
Ravalli County

Re: Rod Daniel's intention to become a Registered Sanitarian

Dear Board of County Commissioners:

This letter is to inform you that I have enrolled to take General Microbiology at the University of Montana for the spring semester. Successfully completing the course will allow me to become a sanitarian-in-training and, subsequently, to take the test to become a registered sanitarian.

I am doing this with the expectation that I will work for the Ravalli County Environmental Health Department as a registered sanitarian.

Thank you for this opportunity.

Sincerely,

A handwritten signature in blue ink that reads "Rod Daniel".

Rod Daniel  
Environmental Health Specialist
